

# HARMAN PANNU

## Summary

---

I am web developer specializing in front-end development. I tend to write lots of Javascript and have a genuine passion for web. Experienced in developing responsive websites and web applications from scratch in HTML, CSS, Javascript and Javascript frameworks such as jQuery and React JS etc. I also have experience working with Javascript static site generators i.e. Gatsby JS and Hexo.

I like little details and love interactivity. I believe in simplicity and consistency. Currently, I am seeking to learn and grow under the mentorship of proficient developers. I am very passionate about learning new technologies and solving problems. Looking for a company to help solve problems.
